"Homes of a Hundred Ideas." Homes for People of Discriminating Taste.

To live in one's own home is to be established in a dwelling of your own choosing, to be comfortably secure from the uncertain, strenuous moving from house to flat-from flat to housea vain search for a home where it is not. No woman will live in a flat when she can find a home containing her ideals and costing no more to purchase than the rent of the flat.

We have incorporated many of the ideals of the women of Washington in our "Homes of a Hundred Ideas," and in no other houses will these thoughtful contrivances be found. One of the most important features of these homes is the character of the heating plant. We have installed the Arco hot water boiler and the American radiators-capacity assures that perfect uniform heat. Nine rooms, hard burnt brisk and stone, broad porches, sunny living room, perfect lighting

and ventilation. In planning these interiors, we have presented for the first time a reception hall plan without the insanitary area or back building. We are justly proud of the architectural skill which accomplished this plan, never before considered. These homes may be bought at a rental price of \$37.50 per month, including all interest. Terms such as ours mean the saving of thousands of dollars in rent that must be paid by every

man of family in this city of high rentals. It only requires \$850 cash. 16 to 46 Bryant street northwest, between North Capitol and First streets. Here is city convenience combined with the privileges and charm of the country. High elevation; quiet neigh-

borhood; a section of homes. Take North Capitol street cars to Bryant street. It will pay you to "see why" so many people like these homes that they buy before they are finished.

MIDDAUGH AND SHANNON, Inc., Owner.

"No place like home; no home like ours."

Selling Agents, Shannon and Luchs, 713 14th St.
